RESOURCES LIMITED

Company Profile

Mining licences · Minerals · Investment — Tanzania

Gold. Growth. Greatness.

November 2026

Company No. 186397266 · P.O. Box 32355, Dar es Salaam

Company overview

Afriglobal Resources Limited is a Tanzanian mining company that deals in all types of mining licences across various minerals. We hold good licences in various minerals across Tanzania, run various business ventures and act as a business and investment hub for minerals.

We bring technical support, equipment, funding and management to licensed operations, working with licence holders through joint ventures, technical-support agreements and investment, in line with the requirements of the Mining Commission. Our flagship is the Chunya–Makongorosi Gold project in Chunya District, Mbeya Region.

What we do

Licences and partnerships
We work across all types of mining licences — PML, PL and ML — and minerals, under written agreements with licence holders.

Mining and processing
Shaft and open-pit mining with modern equipment; vat leaching at Umoja (Chunya) and tailings processing at Ngeze (Kilindi).

Investment hub
A gateway for investors and partners into documented mineral opportunities across Tanzania.

Technical support and EPC
Technical support, plant development and EPC for licensed mineral operations.

Our sites (as published on afriglobalresources.com)

Site	Region	Mineral	Licences and our role	Status
Chunya–Makongorosi (Kitete, Umoja)	Chunya District, Mbeya	Gold	18 PMLs held by the registered licence holder; Afriglobal holds technical-support rights (TSA, 13 Nov 2025). Support on 10 PMLs authorised by the Mining Commission (MC/TSA/121-2026).	Operating since Nov 2025; existing vat-leach facility at Umoja
Mapele	Chunya District, Mbeya	Gold	Through group company AfriGlobal Group Limited (No. 210603107), technical supporter to the holder of a PML (Main Agreement, 24 Sep 2026)	TSA being prepared for registration; no resource declared
Manga (Tengwe area)	Handeni District, Tanga	Gold	10 Gold PMLs held by Afriglobal Resources Limited	Fully granted (Oct 2026); prospective, untested
Ngeze	Kilindi District, Tanga	Gold	2 PMLs (PML 1314TNG, PML 1315TNG) operated under an investment and operating agreement (23 Oct 2025, 10 years)	Active: vat leaching of existing tailings

No JORC, SAMREC, NI 43-101 or other CRIRSCO-aligned Mineral Resource has yet been declared for any of our project areas.
